Instructions to Authors

The main emphasis of the journal is on original research. Analytical reviews of research, brief scientific reports, scholarly case studies, and commentaries are also considered for publication. The clinical focus of research should be incorporated into the manuscripts. There is no special section on clinical implications, but authors should integrate implications for practice, as appropriate, into papers. Authors should indicate in the Method section of relevant manuscripts how informed consent was obtained and report the approval of the study by the appropriate Institutional Review Board(s). Authors will also be asked to sign a statement, provided by the Editor, that they have complied with the American Psychological Association Ethical Principles, with regard to the treatment of their sample.

Terminology should be sensitive to the individual who has a disease or disability. The term ‘person with diabetes, person with HIV infection, families of children with cancer’ rather than the condition as an adjective (e.g., diabetic children, HIV patients, cancer families). Nonsexist language should be used.

Manuscripts that do not conform to these guidelines will be returned to the authors for revision prior to peer review. Manuscripts must be submitted electronically online through the journal’s online submission Web site at http://mc.manuscriptcentral.com/jpepsy. Further instructions for preparation and submission of manuscripts can be found on the journal’s Web site at www.jpepsy.oxfordjournals.org. The surface mailing address for other correspondence to the editorial office: Ronald T. Brown, PhD, ABPP, Editor, Journal of Pediatric Psychology, Temple University, Office of the Dean, College of Health Professions, 3307 N. Broad St., 300-Jones Hall Philadelphia, PA 19140-5101.

Submission is a representation that the work has not been published previously and is not currently under consideration for publication elsewhere. Authors should indicate in their cover letter that these conditions have been met. The relationship of the submitted manuscript with other publications or submissions of the author(s), if any, should be explained. The cover letter should also include a statement indicating that the paper has been seen and approved by all authors. The full mailing address, telephone, fax, and e-mail address should be included in the cover letter.

The journal makes no page charges. Authors will receive a URL (via e-mail) for free access to their article online. Reprints may be ordered when page proofs are sent to authors. A statement confirming copyright to the Society of Pediatric Psychology will be required before the paper can be accepted for publication. Such a written transfer of copyright is necessary under the U.S. Copyright Law in order for the journal to be disseminated widely and effectively.

Details of all funding sources for the work in question should be given in a separate section entitled ‘Funding’. This should appear before the ‘Acknowledgements’ section. The following rules should be followed: the full official funding agency name should be given, i.e. National Institutes of Health, not NIH; grant numbers should be given in brackets; multiple grant numbers should be separated by a comma; agencies should be separated by a semi-colon, no extra wording like ‘Funding for this work was provided by …’ should be used; where individuals need to be specified for certain sources of funding the following text should be added after the relevant agency or grant number ‘to [author initials]’.

An example is given here: National Institutes of Health (C08403361 to C.S., DB645473 to M.H.); Funding Agency (ldhr667789).

Permission to reproduce copyright material, for print and online publication in perpetuity, must be cleared and if necessary paid for by the author; this includes applications and payments to DACS, ARS, and similar licensing agencies where appropriate. Evidence in writing that such permissions have been secured from the rights-holder must be made available to the editors. It is also the author’s responsibility to include acknowledgements as stipulated by the particular institutions. Oxford Journals can offer information and documentation to assist authors in securing print and online permissions: please see the Guidelines for Authors section (http://www.oxfordjournals.org/access_purchase/rights_permissions.html) Information on permissions contacts for a number of main galleries and museums can also be provided. Should you require copies of this, please contact the editorial office of the journal in question or the Oxford Journals Rights department/journals.permissions@oxfordjournals.org.

Author Self-Archiving/Public Access policy from May 2005. For information about this journal’s policy, please visit our Author Self-Archiving policy page at http://www.oxfordjournals.org/access_purchase/self-archiving_policya.html
335 Sleep Difficulties in Infants at Risk for Developmental Delays: A Longitudinal Study
Anat Scher, Lillian The, Virginia E. Hayes, and Megan Tardif

406 Commentary: Comparing Actigraphy and Parental Report as Measures of Children’s Sleep
Art Sadeh

408 Single Parents of Children with Chronic Illness: An Understudied Phenomenon

422 Parental Distress, Family Functioning, and Social Support in Families with and without a Child with Neurofibromatosis Type 1
Jennifer Beiter-Pattillo, Elizabeth K. Schorry, Anne M. Lovell, Kathryn Vannatta, Cynthia A. Gorshold, and Robert B. Noll

435 Brief Report: Children’s Responses to Trauma- and Nontrauma-related Hospital Admissions: A Comparison Study
Belinda L. Murray, Justin A. Kenardy, and Susan H. Spence

441 Brief Report: Maintenance of Effects of Motivational Enhancement Therapy to Improve Risperidone-Associated Hyperactivity in Children: A Randomized Controlled Trial of Youth—Living with ADHD
Sylvie Naud-King, Phele Lai, Bo Wang, Kathryn Wright, Jeffrey T. Parsons, and Maureen A. Frey

446 Letter to the Editor: The Effects of Organophosphate Pesticide Exposure on Hispanic Children’s Cognitive and Behavioral Functioning
Chip Gresham and Frank LeVechia

447 Response
Patricia Sánchez Lizardi, Mary Kay O’Rourke, and Richard J. Morris

CONTENTS

Special Issue (continued): Sleep in Pediatric Medical Populations
335 Introduction to the Special Issue: Sleep in Children with Neurodevelopmental and Psychiatric Disorders
Judith Owens and Tonia Palermo

339 The Interplay of Sleep Disturbance, Anxiety, and Depression in Children
Daniel B. Chorney, Michael F. Detweiler, Tracy L. Morris, and Brett R. Kuhn

349 Web Survey of Sleep Problems Associated with Early-onset Bipolar Spectrum Disorders
Nicholas Lofthouse, Mary Fristad, Mark Splaingard, Kelly Kelleher, John Hayes, and Susan Resko

358 Caffeine Consumption, Sleep, and Affect in the Natural Environments of Depressed Youth and Healthy Controls
Diana J. Whalen, Jennifer S. Silk, Mara Semel, Erika E. Forbes, Neal D. Ryan, David A. Axelson, Darin Birmaher, and Ronald E. Dahl

368 Acute Impact of Immediate Release Methylphenidate Administered Three Times a Day on Sleep in Children with Attention-Deficit/Hyperactivity Disorder
Penney Garber, Rachel Panton, Sarah Ironside, Marilyn MacPherson, and Tracey Williams

380 Brief Report: Sleep in Parents of Children with Autism Spectrum Disorders
Lisa J. Meltzer

387 Sleep Quality in Young Adults with Very Low Birth Weight—the Helsinki Study of Very Low Birth Weight Adults
Jouko Strang-Karlsson, Katri Rautaho, Erni Kajantie, Sture Andersson, Johan G. Eriksson, and E. Juulia Paavonen
